EG&G ROCKY FLATS PLANT CORRESPONDENCE SUMMOL

Charles L. Figur, Esq. U.S. Environmental Protection Agency Region VIII Office of Regional Counsel 999 18th St., Suite 500 Denver, CO 80202-2405

Dear Mr. Figur:

Rocky Flats Field Office (RFFO) technical staff contacted Dan Bench of the U.S. Environmental Protection Agency, Region VIII (EPA) to discuss concluding previous negotiations on the PCB Order and to, hopefully, finalize the agreement. DOE has revised the draft PCB Order transmitted to you on July 6, 1993. The revised draft PCB Order is enclosed for consideration. The RFFO believes that the enclosed revised draft is acceptable to DOE and EG&G. However, there may be some minor changes needed based upon your review and after final review for execution by the parties.

Besides a number of suggested minor editorial and name change revisions, the revised draft reflects deletion of the Dispute Resolution, Force Majeure, Five Year Plan, and Funding sections, and deletion of those portions of other sections that were lined out in the July 6, 1993, draft based upon our previous discussions. It also reflects the deletion of coverage for wastes managed as potentially non-radioactive. These previously identified wastes have been dispositioned as containing radioactive wastes. New suggested language and deletions are in bold italics or lined out, respectively.

It is suggested that the language can be finalized via telephone, but RFFO and EG&G representatives will be happy to meet with you and EPA staff as necessary to resolve any issues as appropriate. Please call me at (303) 966-7843, if you have any questions about this transmittal.

Your assistance in this matter is most appreciated.

Sincerely,

ORRES. CONTROL	X	X
